

Welcome to HBG Pty Ltd

Who are we? HBG Pty Ltd are a chartered accountancy based practice operating a virtual office which allows practice projection to anywhere in Australia and the world. HBG is a vital business partner in the growth, and long term retention of individual and corporate wealth. Because we are not geographically constrained, our business is projected throughout the world through technology supported by back up visits. Because of the nearness of the area, we have obtained specialised entrance into the Asian region where we use a combination of like minded organisations and merchant banks to allow businesses within Australia and Asia to create business to business trading portals which are facilitated by HBG Pty Ltd
